👤 PROFILE

As a recent graduate with a passion for software development and a strong educational foundation in Computer Science, I am eager to embark on a career as a software developer. My academic coursework, hands-on projects, and self-driven learning have equipped me with the foundational skills and enthusiasm required for success in this field.

🎓 EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering
Santhiram Engineering College
CGPA:7.1

August 2019 – May 2023
Nandyal, India

Intermediate (MPC - Mathematics, Physics, Chemistry)
K.G.R Junior College
CGPA:9.0

June 2018 – March 2019
Banaganapalle, India

10th Grade (C.B.S.E Syllabus)
The Nandyala Public School
C.G.P.A:9.0

May 2014 – June 2015
Nandyal, India

🧠 TECHINACAL SKILLS

HTML&CSS
creating clean, semantic HTML5 markup.

React js
Introductory knowledge of React.js
Exposure to building basic user interfaces with React components.

Java
Object-Oriented Programming (OOP) concepts. Solid understanding of Java fundamentals, including data types and methods.
Knowledge of basic design patterns and best coding practices

JavaScript (JS)
Basic proficiency in JavaScript programming. Familiarity with fundamental concepts like DOM manipulation and event handling.

Bootstrap
Frameworks help to complete my projects faster and effectively

SQL
basic knowledge on SQL

🧩 PROJECTS

QrGenerator using React.js
The QR Code Generator app is a web application built using ReactJS that allows users to create QR codes dynamically. QR codes are two-dimensional barcodes that can be scanned by smartphones. They encode information such as text, URLs, contact details, or messages.

Digital Clock
Developed a digital clock web Content using HTML, CSS, and JavaScript. The project displays the current time in a user-friendly format and updates in real-time.

currency converter
This Python project focuses on exchange rates. It uses the Exchange Rate-API to fetch the latest exchange rates.
The steps include importing required libraries, creating a Currency Converter class, designing the UI, and implementing the main function

To-Do Task
Collaborated on the development of a dynamic To-Do Task web application using React.js. The project focused on creating an interactive user interface for managing tasks and demonstrated proficiency in state management, component-based architecture, and React-specific concepts.

📑 CERTIFICATES

Certification of Python Skill Test (Basic, Intermediate) from Hacker rank.
Certification of Python Skill Test (Basic, Intermediate) from
Hacker Rank.

Salesforce developer catalyst
Completed Salesforce Trailhead modules during an 8-week virtual internship (August-October 2022), covering topics like Salesforce Fundamentals, Organizational Setup, and Development.

🧩 STRENGTH

Adaptability
The skill to adjust to changing circumstances and learn new skills quickly.

Conflict Resolution
Demonstrating capability to resolve conflicts and mediate disagreements.

Teamwork
Demonstrating ability to work collaboratively with others to achieve common goals.

✏️ DECLARATION

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge. I understand that any false statements or misrepresentations may result in disqualification from employment opportunities
